

C2G
16.4ft (5m) MTRJ-ST 62.5/125 OM1 Duplex Multimode PVC Fiber Optic Cable (TAA Compliant) - Orange
Part No. CG-33139

With MTRJ to ST termination, this high quality fiber optic patch cable is specifically designed for ethernet, multimedia, or communication applications. The MTRJ connector features an easy-to-use latch-type design similar to the RJ connector on a Cat5 patch cable, and is half the size of the SC connector. With its small footprint design, the MTRJ connector can increase the port density.

The ST connector features a bayonet locking system.

The patented injection molding process provides each connection greater durability in resisting pulls, strains and impacts from cabling installs.

Each cable is 100% optically inspected and tested for insertion loss before you receive it. A pull-proof jacket design surrounds the popular 62.5/125 multimode fiber, immune to electrical interference.

Features & Benefits

Designed to support gigabit ethernet, FDDI, multimedia, ATM, or any application that requires high speed data transfer	Patented injection molding process for greater durability
Optically inspected and tested for insertion loss	Pull-proof jacket design, immune to electrical interference
