

C2G
Discontinued - Table Mount for Logitech® Connect (USA Made)
Part No. CG-34051

The Table Mount for the Logitech Connect offers security, stability, and convenience in a clean tabletop surface mount for conference rooms, huddle spaces, or other meeting spaces. The mount can be affixed to the table with 4 tamper resistant screws or it can rest on 4 slip resistant rubber feet. The Logitech Connect is clamped into the mount with a tamper resistant screw that ensures that it will not be removed from the mount. The clamp also maintains a stable image with a vibration reduction pedestal, located directly below the Connect. Though mounted inside the clamp the Connect can still be rotated left or right to position the camera and microphone at the optimal angle. The Logitech Connect table mount is designed with 14 gauge steel that is capable of a sustained weight of 5 pounds—5 times greater than the weight of the Connect. The rubber cable grommet can channel an HDMI, USB, power cord, and lock through the mount providing strain relief to the cables to ensuring a clean installation.

Note: The Logitech Connect is not included with the mount.

Features & Benefits

Robust 14 gauge steel construction.

Tamper resistant screws.

Locking horizontal angle adjustment.

Rubber grommet for cable pass through.

Hook and loop cable management strap.
