

C2G Discontinued - 75ft (22.8m) Premium Shielded HD15 M/M SXGA Monitor Cable Part No. CG-35569

Gain maximum flexibility in positioning your VGA card and monitor with this premium shielded cable. This VGA cable is ideal for video splitters, KVM switches, video presentations, classroom environments, POS devices, server rooms, or just for organizing your work area for maximum comfort and efficiency. Constructed from premium grade video cable, it uses a combination of coax and twisted pair to accommodate cable runs up to 100 feet away without a booster (in most cases), and without the typical distortion problems associated with extended length cabling runs. This cable is designed to hold the signal over greater distances without boosting or reconditioning.

SXGA provides a screen resolution of 1280 x 1024 pixels.

Please Note: Pin 9 is not loaded. Pin 9 is not required for standard computer video applications.
