Cost-effective solution that provides higher bandwidth and transmission rates and supports longer distances with lower loss than 62.5/125 fiber. Specifically designed for use with today's narrower aperture components, this cable is fully compatible with multimode applications. The plenum rating provides the fire protection required to run this cable within walls and air plenums without using conduit. The patented injection molding process provides each connection greater durability in resisting pulls, strains and impacts from cabling installs.

Each cable is 100% optically inspected and tested for insertion loss before you receive it. A pull-proof jacket design surrounds the popular 50/125 multimode fiber, immune to electrical interference. These multicolored fiber optic patch cables enable you to quickly identify various applications present in your fiber distribution system. The connectors on each end are color-coded for easy identification in a congested patch field.

Features & Benefits

Designed to support gigabit ethernet, fibre channel, Infiniband, ATM, and internet protocol applications	Plenum CMP rated for cable runs through walls and drop ceilings with plenum air space
Patented injection molding process for greater durability	Optically inspected and tested for insertion loss
Pull-proof jacket design, immune to electrical interference	Color-coded connectors for easy identification

Specifications

General Info

Product Line	C2G	Color	Red
UPC Number	757120376163	Country Of Origin	Hong Kong
Application Sector	Commercial, Industrial	Type	Cable

Dimensions

Cable Length	6.6 ft

Technical Information

Fiber Optic Cable Type	Multimode, OM2	Jacket Material	PVC (Polyvinyl Chloride)
Jacket Application	Plenum Rated	Bend Radius	50 mm
Simplex/Duplex	Duplex	Cable Type	Fiber Optic
Jacket Rating	CMP Rated, FT6 Rated	Data Transfer Rate	10 Gbps
Connector 2	ST Male	Connector 1	LC Male
Fiber Size	50/125
