C2G

C2G
16.4ft (5m) LC-LC 50/125 OM2 Duplex Multimode Fiber Optic Cable (TAA Compliant) - Plenum CMP-Rated - Blue

Part No. CG-37648

Cost-effective solution that provides higher bandwidth and transmission rates and supports longer distances with lower loss than 62.5/125 fiber. Specifically designed for use with today's narrower aperture components, this cable is fully compatible with multimode applications. The plenum rating provides the fire protection required to run this cable within walls and air plenums without using conduit. The patented injection molding process provides each connection greater durability in resisting pulls, strains and impacts from cabling installs.

Each cable is 100% optically inspected and tested for insertion loss before you receive it. A pull-proof jacket design surrounds the popular 50/125 multimode fiber, immune to electrical interference.

Features & Benefits

- OM2 - 50µm core
- OFNP - Plenum rated jacket
- Supports 500 MHz km OFL at 850/1300nm
- Tested in accordance with EIA/TIA-455-171A
