

M1 cables (also known as EVC or P&D cables) connect projectors and other devices via the M1 connector. M1 can carry both digital and analog signals as well as USB. Many projectors on the market utilize this technology to provide the flexibility of connecting to either VGA or DVI inputs. See our M1 to VGA with USB cable if you want to use a wireless presenter -- with just one cable!

## Specifications

### General Info

Product Line	C2G	Color	Black
Application Sector	Commercial, Residential	Warranty Type	Lifetime
Type	Cable		

### Dimensions

Cable Length	15 ft
--------------	-------

### Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Video Resolution	UXGA (1600x1200)
Cable Type	Adapter, Video	Jacket Rating	Standard / Non-Rated
Adapter Rear	VGA Male	Adapter Front	M1 Male
