

Featuring a guaranteed-for-life, 100% heavy duty steel construction, this wallmount enclosure secures 2 breakout modules in the horizontal or zone distribution areas. It features a low profile that requires little wall space, as well as a large routing space for accessible patch cabling entrance. Top and bottom grommet holes provide easy entrance for the horizontal trunk cables. Incorporated spool rings can secure and store excess cable lengths with a safe bend radius. An easy access front latching door with knockouts is provided for optional locks.

Features & Benefits

Secures 2 breakout modules	Heavy-duty steel construction
Top and bottom grommet holes	Incorporated spool rings to secure and store excess cable
