

This extension cable actively buffers the incoming and outgoing signals to ensure compliance with the USB 2.0 specification for electrical and timing minimums. You can connect up to 3 active extension cables end-to-end to achieve up to 118 feet [36 meter] total extension! Both low and high speed USB devices will function equally well with this extension cable. The active chip is built into the female connector so you can easily install this cable in conduit or raceway!

Features & Benefits

- Extends USB 2.0 signals beyond the five meter length limitation
- Consumes 100mA from the USB port of the computer
- Up to three cables may be used for a total extension of 118 feet

Specifications

General Info

| | | | |
|-------------------|--------|--------------------|-------------------------|
| Product Line | C2G | UPC Number | 757120399780 |
| Country Of Origin | China | Application Sector | Commercial, Residential |
| Warranty Type | 5-Year | Type | Active Device, Cable |

Dimensions
