

Every installation technician has faced it or soon will - the dreaded humming from the speakers, a telltale sign of a ground loop. Ground loops are caused by voltage potential differences at the ground point on your equipment. Voltages in the range of microvolts up to millivolts or higher can cause ground loops. Ground loops occur when multiple audio/video components are powered from different outlets, most commonly, outlets that are tied to different circuitbreakers or even a different secondary from the power transformer.

Ground loops manifest themselves in the form of speaker hum.

Our isolation transformer easily connects into your audio/video system and breaks the ground path through cables between components. Start at the component last installed before the ground loop was discovered, and connect the isolation transformer at different ends of the audio/video cable until the ground loop is gone.

Please Note: While this transformer is designed to eliminate ground loops, isolating the source of the ground loop can be very difficult even for professional technicians. Sometimes the problem can be at the last added component or at the furthest from the main system; however, these might only be symptoms of a harder-to-solve problem. Please exercise patience as you work through test scenarios to eliminate your ground loop issue.

Features & Benefits

Eliminates speaker hum caused by ground loops

Supports Stereo Audio signals

21 inch length

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120400004	Country Of Origin	Taiwan, Province Of China
Application Sector	Residential, Commercial	Warranty Type	Lifetime
Type	Transformer		

Dimensions

Cable Length	1.75 ft
--------------	---------

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Adapter Rear	3.5mm Stereo Female	Adapter Front	3.5mm Stereo Male
--------------	---------------------	---------------	-------------------
