

C2G
Discontinued - 6.6ft (2m) Velocity™ Illuminated Tip TOSLINK® Optical Digital Audio Cable
Part No. CG-40014

Make a positive connection every time with the Velocity illuminated tip TOSLINK cable. The illuminated ring ahead of the connector body indicates when the cable is properly connected properly with a present signal. The unique round universal plug connects to a TOSLINK jack regardless of the connector's orientation.

A 6mm diameter, soft-flexible PVC jacket protects the delicate fiber core. This cable's design eliminates EMI/RFI interference common to standard audio/video cables.
