

C2G

Discontinued - Optical to Coaxial Digital Audio Converter (TAA Compliant)

Part No. CG-40019

Need more TOSLINK inputs on your receiver? This optical to coaxial converter will connect the TOSLINK optical output from your DVD player, cable or satellite receiver to a coaxial digital audio input. Don't buy a new receiver, just change media formats and get full digital signal sound quality.

Power supply included. Installation is simple; just connect the cables to the converter and to your device, and then plug everything in and power up. Ideal for home theater, Dolby® Digital® and DTS®.

For your convenience, the AC/DC Adapter (#98011) is available for this item. To order a replacement part, please call us at 1-800-506-9607.

Features & Benefits

Converts optical digital audio signals to coaxial digital audio signal

Supports Dolby® Digital® and DTS® audio

Light weight plastic housing
