

Use this XLR to RCA cable to connect unbalanced sources to balanced XLR inputs. This pro-audio cable is made from 22 AWG twisted pair audio cable under an aluminum foil shield and 60% copper braid for maximum shielding from noise. The highly flexible 7mm PVC jacket reduces the risk of the cable kinking and damaging the conductors.

Bright nickel plating on solid brass connectors resists wear from reconfiguring and moving equipment from one venue to another. Gold-plated brass RCA connectors provide maximum signal transfer while eliminating oxidation. Spring strain relief on the RCA plug and a chuck strain relief inside the XLR reduce the effects of age on the solder joints and contacts.

Specifications

General Info

Product Line	C2G	Color	Black
Application Sector	Commercial, Residential	Warranty Type	Lifetime
Type	Cable		

Dimensions

Cable Length	1.5 ft
--------------	--------

Technical Information

Cable Type	Adapter, Audio	Connector 2	RCA Male
Connector 1	XLR 3-pin Male
