

This USB adapter acts as the administrator key to allow access to certain functions within a Media Controller. This small, easy-to-store tool unlocks powerful functions that save time and money. Within administrative mode, users can upload/download new equipment configuration scripts that allow for easy deployment across multiple controllers as room equipment changes. It also allows access to infrared (IR) programming capabilities, making programming via a remote control hassle-free. Firmware updates can also be made across multiple controllers without the need to remove from the wall.

Note: Pins 4 and 5 are shorted on Mini A

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120403463	Country Of Origin	China
Application Sector	Commercial, Residential	Type	Adapter, Cable

Technical Information

Conductor Stranding	Stranded	Signal Transmission	Bidirectional
Connector 2	USB Mini-B Male	Connector 1	USB-A Female
