

C2G
Discontinued - DVI and 3.5mm Audio Pass Through Single Gang Wall Plate - Brushed Aluminum
Part No. CG-40353

This wall plate dresses up any home theater, conference room or classroom and provides the final finishing touch to your audio/video installation. Unlike traditional pass-through wall plates, it is constructed by using four-layer computer grade printed circuit boards (PCBs). The PCB traces are engineered to maintain the critical impedance necessary to transfer the delicate digital signal. This wall plate fits standard electrical boxes.

Use the 3.5mm to run the audio using our line of DVI + 3.5mm cables. The dongle on the back will allow for your DVI installation to go where you need the cables ran inside the electrical box.

Specifications
