

In many new flat panel TV installations, space is key. Often there is not much clearance to fit the cable's connector in the space between the TV and the wall. An additional problem is that the weight of the HDMI cable stresses the HDMI connector. Over time, this stress and the constant plugging and unplugging of cables can cause the HDMI connectors on your HDTV and devices to wear down, become damaged, and even degrade picture quality.

Solve both problems and protect your HDTV investment with this port saver adapter. This adapter rotates up to 180° to alleviate stress from the HDMI connector by adapting the HDMI cable to virtually any angle, and to enable connection in a tight area. It can also absorb the abuse of repeated plugging and unplugging, and thus protect the HDTV's HDMI connectors. Though compact, our adapter is a quick and easy way to extend the life of your valuable equipment. Gold-plated connectors. Packaged for resale.

## Features & Benefits

- 180° of flexibility for installations in tight spaces
- Gold plated connectors
- Supports up to a 1080p resolution

## Specifications

### General Info

Product Line	C2G	Color	Black
UPC Number	757120404200	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Adapter

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

### Technical Information

Video Resolution	1080p	Adapter Rear	HDMI Female
Adapter Front	HDMI Male
