

Make the right choice to extend your composite audio (left/right) connection to your TV, monitor or a/v receiver. Ordinary "included in the box" audio cables often use low quality materials with inferior shielding that can result in poor quality. But our RCA cables deliver all the detail you expect from your audio equipment. The coax conductor's copper braid shield helps reduce unwanted noise and distortion. The connectors are color-coded for easy installation and identification and provide excellent strain relief.

Features & Benefits

Deliver detailed audio quality.	Color-coded connectors for easy installation and identification.
Allows you to connect your audio equipment to your TV, monitor, or a/v receiver.	Ensures high-quality audio transmission.
Provides clear and detailed sound.	Minimizes unwanted noise and distortion for a better listening experience.
Durable design with excellent strain relief for long-lasting use.	

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120404682	Country Of Origin	China
Features	Color-Coded	Application Sector	Commercial, Residential
Warranty Type	Lifetime	Type	Cable

Dimensions

Product Length US	6.0 FT	Cable Length	6 ft
-------------------	--------	--------------	------

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Plating Specification	Nickel
Signal Transmission	Bidirectional	Cable Type	Audio, Extension
Jacket Rating	Standard / Non-Rated	Connector 2	RCA Stereo Audio Female
Connector 1	RCA Stereo Audio Male
