

Add the finishing touch to audio/video installations with a feed-through wall plate. This wall plate is designed to mount in standard electrical boxes or mud rings. The thick stainless steel composition provides better protection than plastic wall plates in commercial environments where constant wear and tear causes damage.

Feed-through connectors and identification markings make this wall plate simple to install and easy to connect equipment. Furthermore, it is compatible with any existing wiring network. The single gang design offers connectors for HD15, 3.5mm stereo audio, composite video, and left/right audio, all in one wall plate. Feed-through connectors are designed to offer lossless signal transfer and maximum insertions for a lifetime of service. Mounting hardware included.

Features & Benefits

- Passive, pass through design
- Durable, aircraft grade aluminum construction
- Designed to fit standard single gang wall boxes

Specifications

General Info

Product Line	C2G	Color	Aluminum
UPC Number	757120404903	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Wall Plate

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
