

The HDMI, USB-C, Mini DisplayPort, and VGA to HDMI Adapter Converter Switch was designed to connect in applications where the projector or display only has an HDMI input available. This converter switch eliminates the need for additional adapters, and allows the projector or display to remain on the same input for all connected devices. With a single HDMI output and auto switching there is no need to toggle between multiple inputs on a display.

This converter switch offers control and flexibility by auto switching between video sources or via the manual push button located conveniently on the front. This allows for quick changes between video sources and the four inputs cover all of the most common audio/video connections: HDMI, USB-C, Mini DisplayPort, and VGA with stereo audio. This flexibility makes it perfect for use in conference rooms, huddle spaces, classrooms, lecture halls, or anywhere that multiple and complex audio/video signals will be displayed. The auto switching feature for the four input devices eliminates the need to interact with the device other than plugging in a laptop or tablet.

The converter switch supports 4K HDMI, Mini DisplayPort, and USB-C output resolutions up to 4096 x 2160 at 60hz and VGA resolutions up to 1920 x 1080 at 60Hz.

Features & Benefits

- Mini DisplayPort input
- VGA + 3.5mm audio inputs
- Source auto detect and select button function
- HDMI resolutions up to 4K (4096 x 2160 at 60Hz)
- USB-C resolutions up to 4K (4096 x 2160 at 60Hz)
- HDMI input
- USB-C input
- VGA resolutions up to 1920 x 1080 at 60Hz
- Mini DisplayPort resolutions up to 4K (4096 x 2160 at 60Hz)

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120408505	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Adapter, Converter, Switch

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
