

When mounting flat screen TVs, it's hard to know what angle will be required for the HDMI connector. Fortunately, our HDMI adapter can be twisted or turned to virtually any position. The rotator adapter features a center ball joint design that enables a 360° rotation and bending so that the HDMI cable can easily be run at many angles. The adapter's design ensures signal integrity in any position and its flexibility makes it ideal for HDMI connections in limited spaces. With its 360° rotating connector, the days of not having the right connector orientation on your cables are over!

## Specifications

### General Info

Product Line	C2G	Color	Black
UPC Number	757120409281	Country Of Origin	China
Features	Rotating Connectors	Application Sector	Commercial, Residential
Type	Adapter		

### Technical Information

Video Resolution	1080p	Cable Diameter	8.35 mm
Connector 2	HDMI Female	Connector 1	HDMI Male
Video Output Support	HDMI	Video Input Support	HDMI
