

When mounting flat screen TVs, it's hard to know what angle will be required for the HDMI connector. Fortunately, our HDMI coupler can be twisted or turned to virtually any position. The rotator coupler features a center ball joint design that enables a 360° rotation and bending so that the HDMI cable can easily be run at many angles. The coupler's design ensures signal integrity in any position and its flexibility makes it ideal for HDMI connections in limited spaces. With its 360° rotating connector, the days of not having the right connector orientation on your cables are over!

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120409298	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Coupler

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Video Resolution	1080p	Adapter Rear	HDMI Female
Adapter Front	HDMI Female
