

It can often be difficult to predict where components will need to be placed in the future, or to calculate the needed cable length for an installation. Miscalculations often aren't noticed until the cable is already installed. When your installation leaves you short, save time and money and avoid the aggravation of running new cables by simply extending your existing HDMI connection.

Our HDMI female-to-female coupler will extend the distance of your existing HDMI cable by allowing two cables to be coupled together. It is compact and designed for minimal signal loss to provide an easy, quality connection between two HDMI cables. PCB design safeguards signal integrity; gold-plated connectors.

Please Note: Video source equipment and cable length will play a part in the quality of a video image on the display. Be aware of the limitations of your equipment and what effect any additional cable length has on the picture quality.

Features & Benefits

Extend overall cable length by coupling two cables

Supports up to a 1080p resolution

Compact design

Specifications

General Info

Product Line	C2G	Color	Blue
UPC Number	757120409700	Country Of Origin	Vietnam
Application Sector	Commercial, Residential	Warranty Type	Lifetime
Type	Coupler		

Dimensions

Product Width US	0.89 in	Product Length US	1.29 in
------------------	---------	-------------------	---------

Technical Information

Video Resolution	1080p	Storage Humidity	15-85% RH (Non-Condensing)
Connector 2	HDMI Female	Connector 1	HDMI Female

Video Output Support	HDMI	Operating Temperature	0°-50°C
----------------------	------	-----------------------	---------

Operating Humidity	15-85% RH (Non-Condensing)	Video Input Support	HDMI
--------------------	----------------------------	---------------------	------

Storage Temperature	-25° - 85° C
---------------------	--------------
