

C2G
Discontinued - Composite Video and RCA Stereo Audio Pass Through Single Gang Wall Plate - Brushed Aluminum
Part No. CG-41013

Add the finishing touch to audio/video installations with a feed-through wall plate. This wall plate is designed to mount in standard electrical boxes or mud rings. The thick stainless steel composition provides better protection than plastic wall plates in commercial environments where constant wear and tear causes damage.

Feed-through connectors and identification markings make this wall plate simple to install and easy to connect equipment. Furthermore, it is compatible with any existing wiring network. The single gang design offers connectors for composite video and left/right audio all in one wall plate. Feed-through connectors are designed to offer lossless signal transfer and maximum insertions for a lifetime of service. Mounting hardware included.

Specifications

General Info

Product Line	C2G	Color	Aluminum
UPC Number	757120410133	Country Of Origin	China
Type	Wall Plate
