

The HDMI pass through wall plate allows for a clean, professional looking and seamless transition to in-wall HDMI cabling using a wall plate form factor, which offers a more secure installation option over traditional transition methods. The wall plate provides a secure mount within the wall and is not likely to be stolen or misplaced. Unlike traditional pass-through wall plates, this wall plate is constructed by using four-layer computer grade printed circuit boards (PCBs).

The PCB traces are engineered to maintain the critical impedance necessary to transfer digital audio/video signals. Made from 20 AWG steel, this strong wall plate fits standard electrical boxes, and is compatible with decorative trim plates.

Features & Benefits

Clean, professional looking wall plate form factor	Constructed by using four-layer computer grade printed circuit boards (PCBs)
PCB traces are engineered to maintain critical impedance	Made from 20 AWG steel

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120410454	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Wall Plate

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Video Resolution	4K, 1080p	Adapter Rear	HDMI Female
Adapter Front	HDMI Female
