

Quickly customize the length of your home theater or broadcast video cables with these connectors. Nickel-plated brass provides years of reliable service. Barbs within the connector centerpin provide a reliable signal path, and ensure a positive connection to the cable's center conductor. These connectors are a breeze to install and more reliable and easier to use than traditional hex crimp BNC connectors.

Simply prepare the cable in the same manner as an f-type connector, insert the connector onto the coax cable and compress it with the 3-in-1 compression tool (item #38011).

Note: Item 41123 must be installed on a RG59 dual shield cable that has an outer diameter between 5.4mm and 6.1mm.

Specifications

General Info

Product Line	C2G	UPC Number	757120411239
Country Of Origin	Taiwan, Province Of China	Type	Connector

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Adapter Front	BNC Male
