

Use your mobile device's Bluetooth technology to stream audio through your car stereo or home stereo. This USB Bluetooth Receiver is the perfect solution for adding Bluetooth capability to an audio system such as a home stereo or car audio system to receive streaming audio from a smartphone, tablet or other mobile device. The receiver requires power from a USB port on the audio system or from an AC to USB adapter. Audio is transmitted from the receiver to the audio system through an integrated 3.5mm Stereo Audio cable. The Stereo Audio Adapter allows the integrated 3.5mm Stereo Audio cable to connect to a Dual RCA Stereo Audio input on the audio system. Bluetooth technology provides a wireless connectivity range of up to 32 feet.

Features & Benefits

Easily connect a Bluetooth device to a device with a 3.5mm audio output.	Stream audio from your mobile device using Bluetooth technology
Works with the newest Samsung and iPhone devices	Wireless connectivity up to 32 feet
USB Powered	Connect to any 3.5mm audio output

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120413233	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Adapter, Receiver

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
