

This adapter converter dongle is an ideal solution for connecting the audio/video output of a HDMI-enabled Chromebook or laptop to a VGA display and set of speakers. The dongle design of this adapter converter does not cause the stress on the port of a small laptop that is common when using a box style adapter. Up to a 1920x1080 video resolution is supported, allowing this adapter converter to meet the needs of a high performance application. Connect this adapter directly to the output of a laptop and use a VGA and Stereo Audio cable to connect to a display.

Features & Benefits

Adapts the audio/video output of a HDMI-enabled Chromebook or laptop so that it may be connected to a VGA display and a set of speakers	Connects to the audio/video output of a small laptop without causing undue stress on the port
Supports up to a 1920x1080 resolution	Use with a VGA and Stereo Audio cable for a complete solution
