

This adapter converter dongle is an ideal solution for connecting the video output of a HDMI-enabled Chromebook or laptop to a DVI-D display. The dongle design of this adapter converter does not cause the stress on the port of a small laptop that is common when using a box style adapter. Up to a 1920x1200 video resolution is supported, allowing this adapter converter to meet the needs of a high performance application. Connect this adapter directly to the output of a laptop and use a DVI-D cable to connect to a display.

Features & Benefits

- Adapts the video output of a HDMI-enabled Chromebook or laptop so that it may be connected to a DVI-D display
- Connects to the video output of a small laptop without causing undue stress on the port
- Supports up to a 1920x1200 resolution
- Use with a DVI-D cable for a complete solution
