

This adapter converter dongle is an ideal solution for connecting the video output of a Mini HDMI enabled tablet, small laptop or other mobile device to a VGA display. The dongle design of this adapter converter does not cause the stress on the port of a small laptop that is common when using a box style adapter. Up to a 1920x1080 video resolution is supported, allowing this adapter converter to meet the needs of a high performance application. Connect this adapter directly to the output of a laptop and use a VGA cable to connect to a display.

<

Features & Benefits

- Adapts the video output of a Mini HDMI enabled mobile device so that it may be connected to a VGA display
- Supports up to a 1920x1080 resolution
- Connects to the video output of a small laptop without causing undue stress on the port
- Use with a VGA cable for a complete solution
