

This adapter converter dongle is an ideal solution for connecting the audio/video output of a Mini HDMI enabled tablet, small laptop or other mobile device to a VGA display and set of speakers. The dongle design of this adapter converter does not cause the stress on the port of a small laptop that is common when using a box style adapter. Up to a 1920x1080 video resolution is supported, allowing this adapter converter to meet the needs of a high performance application. Connect this adapter directly to the output of a laptop and use a VGA and Stereo Audio cable to connect to a display.

<

## Features & Benefits

Adapts the audio/video output of a Mini HDMI enabled mobile device so that it may be connected to a VGA display and a set of speakers

Connects to the audio/video output of a small laptop without causing undue stress on the port

Supports up to a 1920x1080 resolution

Use with a VGA and Stereo Audio cable for a complete solution

## Specifications

### General Info
