

Send video signal from an existing desktop computer or another source device with a DVI-D video output port to a projector or monitor with a VGA input. This converter is an ideal solution schools, conference rooms, or other work spaces when connecting to a monitor or projector.

Straightforward install

There is no need for an external graphics adapter or extra converters. This simple plug and play converter changes the DVI-D output signal to VGA, no drivers are required for install nor additional power adapters.

Port protection technology

The dongle style adapter reduces strain on the video port. The cable between the DVI-D connection and the converter provide strain relief that protects the port from stress damage as cords are moved.

Simple power

No need to utilize a power adapter. The DVI to VGA converter pulls power from the DVI-D port bus power. If the source DVI port does not supply enough power there is a USB Micro-B port on the converter which offers an alternative source of power.

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120413806	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Adapter, Converter, Active Device

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	32 AWG
Video Resolution	1080p	Bend Radius	12 mm
Jacket Rating	Standard Non-Rated	Adapter Rear	VGA Female

Adapter Front

USB Micro-B Female, DVI-D Dual
Link Male

Voltage

30 V
