

C2G
Discontinued - 4-Port HDMI® Selector Switch
Part No. CG-41500

Most high-definition audio/video components utilize the HDMI interface to provide crystal clear, digital sound and picture. With the wealth of devices now using HDMI, it's easy to run out of free HDMI inputs on your TV set or receiver. This HDMI selector switch solves the problem by providing additional high-definition digital inputs for sources including DVD player, Blu-ray™, Disc and HD-DVD players, gaming systems, and high-definition cable/satellite boxes.

This HDMI selector offers three rear inputs plus a convenient front input for temporary connection of gaming systems or HD camcorders and cameras. Fully compatible with HDCP-enabled sources. Blue front panel LEDs display the HDMI source currently selected.

Features & Benefits

Supports up to a 1080p resolution and 3D video

Four inputs and one output

Compatible with HDCP
