

RapidRun® is designed to be the standard for in-wall audio/video installations. The RapidRun system empowers you to customize your installation to create your own ideal audio/video solution. Break-away flying leads and wall plates ensure flexible, efficient, high quality connections for all types of equipment.

Quickly change the function of the cable installation by only changing the wall plate!

Please Note: Each complete RapidRun solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. For each runner you will need (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate.
