

RapidRun® is designed to be the standard for in-wall audio/video installations. The RapidRun system empowers you to customize your installation to create your own ideal audio/video solution. Break-away flying leads and wall plates ensure flexible, efficient, high quality connections for all types of equipment.

Ideal for educational and institutional installations, this wall plate receives four XLR balanced audio inputs. Constructed from aluminum for durability.

Please Note: Each complete RapidRun solution requires a (4) XLR wall plate to terminate each end of the runner cable.
