

RapidRun® is designed to be the standard for in-wall audio/video installations. The RapidRun system empowers you to customize your installation to create your own ideal audio/video solution. Break-away flying leads and wall plates ensure flexible, efficient, high quality connections for all types of equipment.

Ideal for educational and institutional installations, this wall plate receives XLR balanced audio. Constructed from aluminum for durability, this wall plate has a locking connector that enables the integrator to save valuable space inside the surface mount or electrical box that typically is already packed with cables.

**Please Note:** Each complete RapidRun solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. For each runner you will need (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate.

## Specifications

### General Info

Product Line	C2G	Color	Aluminum
UPC Number	757120423393	Country Of Origin	China
Type	Wall Plate		

### Technical Information

Bend Radius	90 mm	Adapter Rear	RapidRun 15-pin Male
Adapter Front	XLR 3-pin Female
