

C2G
35ft (10.7m) Cat6 Snagless Solid Shielded Ethernet Network Patch Cable - Blue
Part No. CG-43166

This shielded snagless Cat6 cable is perfect for use with our [HDBaseT Products](#) or with any other application where long length shielded cable is required. This cable is optimized for superior performance in noisy environments and is designed to handle bandwidth-intensive applications. This cable is designed to meet Cat6 TIA/EIA and ISO/IEC standards for patch cable performance. Each individual pair is bonded together to help maintain the twist-spacing throughout the cable right up to the termination point. The cable design minimizes Near-End Crosstalk (NEXT) levels and features high quality solid conductors, full cable shielding and is terminated with a snagless boot & shielded plug. The combination of the shielded plug, shielded cable, snagless boot and solid conductors provides superior performance over standard stranded conductor patch cables when used with HDBaseT solutions.

Features & Benefits

- HDBaseT Certified
- Overall cable shield and shielded connectors
- 4- pair solid conductor construction
- Snagless connector design

Specifications

General Info

Product Line	C2G	Color	Blue
UPC Number	757120431664	Country Of Origin	China
Application Sector	Residential, Commercial, Industrial	Type	Cable

Dimensions

Cable Length	35 ft
--------------	-------

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	23 AWG
Cable Type	Snagless, Shielded (STP), Ethernet Patch Cable	Jacket Rating	Standard Non-Rated

Adapter Rear

RJ-45 Male

Adapter Front

RJ-45 Male
