

C2G
2ft (0.6m) 16 AWG Hospital Grade Power Cord (NEMA 5-15P to IEC320C13) (TAA Compliant) - Black
Part No. CG-48001

Power cords used in hospitals and other medical settings must conform to strict standards for grounding reliability, assembly integrity, strength and durability, as well as regulatory standards such as NEMA and IEC specifications. These standards are in place to ensure that power cords are safe and reliable for use in demanding hospital environments. The hospital grade power cord selection from C2G, formerly Cables To Go, offers one of the broadest selections available on the market.

From our vast selection, you'll find the right solution for replacing an overused or misplaced power cord, or to optimize office or lab layout with a cable that is the perfect length needed. This cable, from our universal C13 series collection, will work with most PCs, monitors, scanners, printers and many other devices that are powered via the industry standard 3-pin C14 connector inlet.

The female C13 connector plugs directly into the device while the male hospital grade 5-15P connector plugs into a hospital grade supply outlet. The black connectors match almost any environment or hospital standard. Performance is guaranteed through a lifetime warranty so performance is never an issue. Easily recognizable with the Green Dot mark, this hospital grade power cord ensures compliance and delivers maximum performance.

Features & Benefits

Green dot compliant, designed for use in hospitals

16 AWG conductor construction

C13 connector, universal power cable

Specifications

General Info

Product Line	C2G	Replaced by Part Number	48013
Color	Black	UPC Number	757120480013
Country Of Origin	Taiwan, Province Of China	Application Sector	Commercial
Type	Power Cord		

Dimensions

Cable Length	2 ft
--------------	------

Trade Programs

TAA Compliant	Yes
