

The DisplayPort to HDMI Passive Adapter Cable is an ideal solution for streaming high-quality audio/video content from the DisplayPort output of a laptop to an HDTV or projector which accepts an HDMI input # making it a perfect solution for the office, work space applications, or conference rooms.

The cable form factor of this adapter provides a simple and convenient solution that eliminates the need for a separate adapter and cable, reducing possible failure points.

This passive adapter cable is a simple plug and play solution that has a DisplayPort 1.2a input and an HDMI 1.4b output. It supports high-definition resolutions up to 4K (3840 x 2160 at 30Hz) and is powered from the DisplayPort source device # allowing it to deliver high quality audio and video to the connected display.

Note:

If the source device supports dual-mode DisplayPort (also known as DP++), a passive adapter can be used because the source device can perform the conversion. If the source device does not support DP++, then an active adapter converter should be used. Thunderbolt 2 ports support DP++ natively.

Features & Benefits

- Adapts a DisplayPort output to HDMI
- Supports resolutions up to 4K (3840 x 2160 at 30hz)
- Powered from DisplayPort source
- Supports DisplayPort 1.2a input and HDMI 1.4b output
- Supports up to 192kHz audio frame rate and up to 24-bit audio sample size

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120544326	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Cable, Adapter

Dimensions

Cable Length	3 ft
--------------	------

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Video Resolution	4K 30Hz, 4K, 1080p
Cable Type	Video, Adapter	Jacket Rating	Standard Non-Rated
Data Transfer Rate	2.7 Gbps	Adapter Rear	HDMI Male
Adapter Front	DisplayPort Male
