

Adapt RapidRun PC (yellow) runner cables to Multi-format (orange) flying leads and wall plates. Ideal for situations when replacing existing PC flying leads and wall plates with Multi-format flying leads and wall plates.

If PC (yellow) flying leads/wall plates are used with a Multi-Format (orange) runner, then an adapter must be used on both ends of the runner cable. This adapter requires that a PC (yellow) flying lead/wall plate be used on both ends of the runner cable.

Please Note: While using this adapter the entire solution will be converted to the design, features, and benefits of the PC solution. To receive the features and benefits of the Multi-format design, Multi-format flying lead and/or wall plate must be installed at both ends of a Multi-format runner cable.

## Features & Benefits

Adapts a RapidRun PC (yellow) flying lead or wall plate to a RapidRun Multi-Format (orange) runner cable Small, compact design

Color coded for easy connections

## Specifications

### General Info
