

C2G
Discontinued - 10ft (3m) RapidRun® VGA (HD15) Flying Lead
 Part No. CG-60084

RapidRun® is designed to be the standard for in-wall audio/video installations. Using pre-terminated Break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high quality connections for all types of equipment, with no field terminations.

Use this CMG-rated Multi-Format Runner for in-wall installations that support high density, multi-format applications. Whether hanging a projector in a modern 21st century classroom or installing a commercial digital signage system, a clean, crisp signal will be delivered every time.

Please note: This product is designed to extend an existing RapidRun Multi-Format Runner cable. While this product can provide a solution for longer length installations, common signal limitations should be observed.

<

Features & Benefits

Designed for use with RapidRun Multi-Format runner cables

Compatible with RapidRun Multi-Format VGA wall plates and flying leads

28 AWG and 24AWG conductor construction
