

RapidRun® is designed to be the standard for in-wall audio/video installations. Using pre-terminated Break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high quality connections for all types of equipment, with no field terminations.

Ideal for educational and institutional installations, this flying lead is commonly used on the display (projector) end of classroom setups with the corresponding wall plate used at the teacher's station.

Please note: Each complete RapidRun Multi-Format solution requires a break-away flying lead or wall plate to terminat each end of the runner cable. Each runner requires (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate.

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120600923	Country Of Origin	China
Application Sector	Commercial	Type	Cable

Dimensions

Cable Length	1.5 ft
--------------	--------

Technical Information

Cable Type	Flying Lead, Video	Jacket Rating	Standard / Non-Rated
Connector 2	RapidRun 15-pin Male	Connector 1	VGA Female
Video Input Support	VGA
