

RapidRun is designed to be the standard for in-wall audio/video installations. Using pre-terminated Break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high quality connections for all types of equipment, with no field terminations.

Ideal for educational and institutional installations, this wall plate allows VGA video, 3.5mm stereo audio to be run over one runner cable, while the HDMI pass through offers a seamless transition to in-wall cabling and the keystone allows for integration with new or existing cable infrastructure for telephone, Ethernet, or other connection types. This wall plate is constructed from aluminum for durability and a long life.

Please note: Each complete RapidRun Multi-Format solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. Each runner requires (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate. Due to constraints of available conductors for signal transmission, EDID signals are not supported with this product.

Specifications

General Info

Product Line	C2G	Color	White
UPC Number	757120600930	Country Of Origin	China
Application Sector	Commercial	Warranty Type	Lifetime
Type	Wall Plate Insert		

Technical Information

Number of Gangs	1	Adapter Rear	RapidRun 15-pin Male
Adapter Front	VGA Female
