RapidRun is designed to be the standard for in-wall audio/video installations. Using pre-terminated Break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high quality connections for all types of equipment, with no field terminations.

RapidRun Multi-Format represents the most significant upgrade to the RapidRun cabling solution to date. With enhanced engineering that includes individually shielded pairs and an isolated ground for audio lines, this solution meets the rigorous demand for applications in which multiple audio/video devices are run over a single cable.

Ideal for educational and institutional installations, this flying lead sends Component Video and Stereo Audio over a single Multi-Format runner cable. It is commonly used on the display (projector) end of classroom setups with the corresponding wall plate used at the teacher's station.

Please note: Each complete RapidRun Multi-Format solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. Each runner requires (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate.

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120601005	Country Of Origin	China
Warranty Type	Lifetime	Type	Cable

Dimensions

Cable Length	1.5 ft

Technical Information

Cable Type	Audio, Flying Lead, Video	Jacket Rating	Standard / Non-Rated
Adapter Rear	RapidRun 15-pin Male	Adapter Front	RCA Component Video Male, RCA Stereo Audio Male
