

RapidRun is designed to be the standard for in-wall audio/video installations. Using pre-terminated Break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high quality connections for all types of equipment, with no field terminations.

Constructed from aluminum for durability, this wall plate has a locking connector that enables the integrator to save valuable space inside the surface mount or electrical box that typically is already packed with cables.

Ideal for educational and institutional installations, this wall plate sends VGA and Composite Video over a single Multi-Format runner cable. It is commonly used on the teacher's station (computer) end of classroom setups with the corresponding flying lead used at the projector.

**Please note:** Each complete RapidRun Multi-Format solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. Each runner requires (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate.

## Specifications

### General Info

Product Line	C2G	Color	Aluminum
UPC Number	757120601029	Country Of Origin	China
Application Sector	Commercial	Warranty Type	Lifetime
Type	Wall Plate		

### Technical Information

Adapter Rear	RapidRun 15-pin Male	Adapter Front	RCA Composite Video Female, VGA Female
