

C2G
Discontinued - RapidRun® Double Gang HD15 + 3.5mm + Composite Video + Stereo Audio + Keystone + HDMI Pass Through Wall Plate
 Part No. CG-60116

RapidRun is designed to be the standard for in-wall audio/video installations. Using pre-terminated Break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high quality connections for all types of equipment, with no field terminations.

Ideal for educational and institutional installations, this wall plate supports PC video and 3.5mm stereo audio, while the HDMI pass through allows for a seamless transition to an in-wall HDMI cable. The keystone allows this plate to be integrated with Ethernet or Telephony infrastructure and will work with Leviton®, L-com®, NetKey®, ADC Krone, Hellermann Tyton, and Allen Tel inserts. This wall plate is constructed from aluminum for durability and a long life.

Please note: Each complete RapidRun Multi-Format solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. Each runner requires (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate. Due to constraints of available conductors for signal transmission, EDID signals are not supported with this product.

<

Features & Benefits

Designed for use with RapidRun Multi-Format runner cables	Flexible HDMI pigtail eases installation in a wall box
Compatible with RapidRun Multi-Format VGA, 3.5mm, Composite Video and RCA Stereo Audio wall plates and flying leads	Fits in a standard double gang wall box

Specifications

General Info

Product Line	C2G	Color	Aluminum
