

This wall plate is an ideal solution for installations which require that a Blu-ray player be connected to a projector through in-wall cabling. This wall plate features a flexible HDMI pigtail which makes installing this wall plate in a wall box easier than wall plates which require use of a standard HDMI cable. The keystone openings allows this wall plate to be easily integrated with existing Ethernet network, or telephony cable infrastructure. This wall plate is designed to work with standard wall boxes and the aluminum construction provides durability and a long life.

Features & Benefits

Supports HDMI audio/video signals

Flexible HDMI pigtail for easy installation in a wall box

Keystone openings allow integration with network and telephony infrastructure

Compatible with a standard single gang wall box

Specifications

General Info

Product Line	C2G	Color	Aluminum
