

**C2G**  
**1.5ft (0.46m) USB-C® Male to USB-A Male Cable - USB 2.0 (480Mbps)**  
Part No. CG-C2G28884

The USB-C Male to USB-A Male Cable - USB 2.0 (480Mbps) is ideal for connecting any standard USB-C enabled device to a USB-A device or accessory for charging and data transfer.

Ensure that a USB-C equipped smartphone or tablet has a full charge and ready to go from the 500mA charging output while simultaneously transferring photos, music, or data at speeds up to 480Mbps. Backward compatible with previous USB specifications and devices.

The symmetrical design of the USB-C connector is identical on both sides, so it does not matter if you plug it in upside-down or right-side-up. It will plug in the first time, every time, while preventing damage to the connector port. There is no need to worry about software or drivers to install. The plug-and-play feature makes it simple to connect and start using right away.

## Features & Benefits

Designed to support USB 2.0 (480Mbps) communication and 500mA charging output to keep your devices fully charged and ready to go

Backward compatible with previous USB specifications and devices  
Reversible, symmetrical USB-C connector

Plug and Play—no software or driver required

## Specifications
