

This HDMI to VGA Active Video Adapter Cable is an easy and convenient solution for connecting a VGA display to an HDMI equipped computer in your home or your office. This adapter cable converts an active digital HDMI signal to an analog VGA video signal, supports up to a 1080p resolution, and meets the requirements of high performance applications - perfect for Chromebooks, laptops, and desktops with HDMI outputs.

Avoid frustration by simply plugging the adapter cable into your computer's HDMI output, then attach to the VGA input of your monitor or projector. The cable form factor of this adapter provides a simple and convenient solution that eliminates the need for a separate adapter and cable. The added USB power cable is perfect for those times when additional connectivity power is needed.

Features & Benefits

- Supports up to a 1080p video resolution, so meeting attendees will be able to see the displayed content for improved comprehension and detailed decision making
- Supports VGA display devices, so no need to purchase a new monitor
- Adapter in cable format, so no additional adapters or cables required
- Integrated USB power cable, for when additional connectivity power is needed
