

C2G
DISCONTINUED: Intel® E10GSFSPSR Compatible 10GBase-SR SFP+ Transceiver Module with Digital Optical Monitoring (Multimode, 850nm, 300m, LC
 Part No. CG-E10GSFSPSR-LEG

This Intel E10GSFSPSR compatible SFP+ transceiver provides 10GBase-SR throughput up to 300m over multi-mode fiber (MMF) at a wavelength of 850nm using a optical monitoring (DOM) support is also present to allow access to real-time operating parameters. Our transceiver is guaranteed to be 100% compatible with th transceiver. This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and application tested to ensure that it will identically. It is built to meet or exceed the specifications of Intel, as well as to comply with multi-source agreement (MSA) standards to ensure seamless network

[B]Please Note: [B] Installing Legrand transceivers does not void your network equipment warranty. Network equipment manufacturers all have guidelines statir on their products will not be affected by installing a Legrand or any third party transceiver.

Features & Benefits

- Functionally identical to Intel E10GSFSPSR
- Transceiver type SR allows for connections up to 300m
- 850nm wavelength signaling
- High speed 10-Gigabit connectivity
- LC ports designed for use with Multimode fiber
- Supports Digital Optical Monitoring (DOM)

Specifications

General Info

Product Line	C2G	UPC Number	757120601821
Country Of Origin	United States	Application Sector	Commercial, Industrial
Warranty Type	Lifetime	Type	Transceiver

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Cable Type	Multimode
