

The Legrand Smart Coder, powered by Integra allows you to rapidly reconfigure pluggable transceivers. It provides three ports for SFP/ SFP+/SFP28, XFP <[>&<]> QSFP+/QSFP28 optical transceivers. The Smart Coder enables you to easily reconfigure Legrand transceivers for any network hardware.

All you have to do is install the Smart Coder application, plug the Smart Coder into the USB port on your laptop, and plug in the transceiver. The user-friendly web interface displays the transceiver's optical power, coding history and diagnostics. Simply select your desired coding configuration and the Smart Coder programs the transceiver for the requested hardware.

## Features & Benefits

SFP/SFP+/SFP28, XFP & QSFP+/QSFP28  
Powered by your USB port

Compact, ruggedized design for easy transport  
Intuitive web-based interface

## Specifications

### General Info

Product Line	C2G	Color	Black
UPC Number	757120163701	Country Of Origin	United States
Type	Tester
