

The Legrand VWM Series wall mount cabinets provide a ultra low profile and easy to use solution, perfect for secure networks, small data closets, retail, educational, edge computing, and all areas where floor space is limited.

**[B]Convenience[/B]**

The split door design allows for user access at the top, while protecting critical equipment behind the front door. Mounting small routers, hubs, and computers that are non-rack mountable is also simplified with the optional patented Lever Lock equipment panels. When customized with many of the optional accessories, the vertical wall-mount cabinets can accommodate many complete computing combinations.

**[B]Durability[/B]**

The VWM cabinets are made of rugged welded steel and have a UL 2416 certified load rating of 150 lbs. The small form factor cabinets are PCI compliant, have a 31" equipment mounting depth and feature a solid locking door that provides security for the installed equipment.

**Features & Benefits**

Certified load rating of 150 lbs per UL2416	PCI Compliant
Full swing handle	Reversible hinged front locking door
Full door design	Patented Lever Lock System
Versatile rail mounting locations	Cable and fan knockouts

**Specifications**
